- 2. Calculate those averages by summing the first-of-year and the end-of-year figures for each account and then dividing the sum by two.
- 3. Note: Do not include property held for future use or construction work in progress with utility plant in service. These are not rate base components.

Re: 1997 Analytical Review DWCCA-4920-PJL

Dear Mr. Schmidt:

The Public Service Commission (Commission) is in the process of completing an analytical review of your utility's 1997 annual report. The purposes of an analytical review are to detect possible reporting or accounting related errors and to identify significant fluctuations from established trends in reported data not sufficiently explained in the annual report. It is our hope that our review will supply information that will enable us to better provide guidance to your utility regarding proper utility accounting and the preparation of future annual reports. In order to complete this review, we request the following information:

- 1. As directed in Headnote 5 of the Water Services Schedule on page W-15, the copper 5/8" services should be reported as M for metal in column (a) and should be reported separately from the lead 5/8" services. Please provide a corrected copy of page W-15. If you do not know the exact breakdown of lead and copper 5/8" services, estimate.
- 2. Please provide the location in terms of street address, column (a), of the Sources of Water Supply Ground Water Schedule on page W-11 for the sources reported on lines 2 and 4.
- 3. Please provide the location in terms of street address for the backup and the main well, line 2 of columns (b) and (c) of the Pumping & Power Equipment Schedule on page W-2.
- 4. The Commission is now using a computerized system to build an annual report database. It is, therefore, important to have a complete and correct annual report. The following changes have been made in our copy of your annual report. Please confirm these changes or indicate the necessary corrections:

We appreciate your cooperation in providing the above information. These recommendations are intended to provide accounting assistance and should not be construed as criticisms of utility personnel. If you have any questions, please feel free to contact me at (608) 267-9198. Please respond within 30 days of this letter. If we have no questions regarding your response, you can consider the review closed.
